

Virgin Random Thoughts

Andy collects action figures, but doesn't take them out of the package. Like him being afraid to "take it out."

One of Trish's kids takes out the action figures, and he has to deal with it. Has to learn how to be a parent. "It's an inaction figure."

Maybe he plays with the action figures while they're still in the boxes.

They make plexiglass boxes – you put the packaged figures inside that – because the packaging has to be mint now. You can get your stuff graded – how much it's worth goes up depending on the grade. Comics: everything's wrapped in plastic – it's like a condom.

That's how Andy gets along with the kids ... he's like a big kid. He can maybe trade comics with Trish's kids.

Set piece: the buddies could take him shopping for a real sex doll. They take it home and set it up for him. Put on music. Get him drunk. Each doll is guaranteed a lock of Jenna Jameson pube. They're all wondering which pube it is. He goes in to have sex with the doll and he has an allergic reaction to the latex. Her vagina creates a vacuum and he can't get it off. He gets heat burn. Another traumatic sex experience.

In places like Circuit City, guys who sell the most warranty plans make the most money. He could be that guy – because he's obsessed with protecting everything.

Drunk woman in the car – she keeps trying to make out with him, even though the cops are there. She keeps calling him. Cast Courtney Love.

Or Andy gets drunk and sleeps over at a woman's house, doesn't know about whether he had sex or not. "What happened last night?" "You're sweet." Or she doesn't remember. "I woke up in a shirt and underwear, does that mean we didn't have sex?"

Does ANDY want to lose his virginity, or do his buddies want him to?

They convince HIM that this is what he wants. They say they became a different guy afterwards.

Maybe they open up one of his action figures to prove it. Start jacking off the superman. You don't need to just get laid, you need to fall in love.

Important for them to all talk about how bad their first sexual experience is, and that he should just get it over with. "And then the second time, it was the most amazing thing in the world."

First girl is never the one you'll be with forever. "Whoever you lose your virginity with, you will not be with for the rest of your life."

Like the idea that he saves it till he gets married.

Rationalizations – religious, right person, special. So he can say at the end, "It was so worth the wait."

By the end of the movie, he catches up to where he should be at 40.

Hard for the audience to feel like they want him to end up with the woman with kids?

Although – as soon as he's with her, you're rooting for her. His friends try to convince him that he's just got to just use her for sex. So he's torn.

Maybe at some point, Trish finds out that he's with the other girl, and she flips out. Scares him – shows real emotion. That makes him blow her off. Then show her again at the end, and he accepts someone who isn't perfect.

It would be funny if he describes the perfect mate – it's the combination of all these comic book characters. "The wisdom and the composure of Jean Gray" – his friends try to hook him up with a blonde Amazon woman, Storm.

Goes on J-Date – he's not Jewish. Tries to get "J-Laid." "Computer dating – it's not just for losers anymore." He could do numerous religions – b-date (Buddhist date), etc.

Has to find the woman he wants to have sex with, but one he can leave immediately.

Maybe want to see Tara step up a lot and try to be involved with the guys. An evening when she meets the guys.

He could do some hypnotherapy to get over his problem.

When he falls for Trish, he breaks off from his friends. New movement. Afraid to tell her he's a virgin, but doesn't know what to do. What is the story here? The friend is like, "I fucked her. You don't want sloppy seconds!" But what's Andy's goal there? Early on, Trish tells him that she's slept with a bunch of guys. Asks him how many he's slept with. Maybe he lies: "58."

Maybe she says let's NOT have sex, because I've been a slut in my life. Let's get to know each other. "I'm ready now. We're going to have sex this weekend." – and then his anxiety attacks start. Climax is that everyone wants to fuck him. The drunk girl keeps calling him – Tara wants to fuck him. Jason's girlfriend wants to fuck him.

Maybe he's getting Viagra to guarantee performance, then he shows up at the door with an erection. Or Priapism – has to go to the hospital to get his penis drained. Or he takes

that stuff from 7-Eleven... OD's on "horny goat weed." "It's making me horny, but I've got the runs."

He loses his virginity the same night that Jennifer does. Could be a funny epilogue.

Talks to the thirteen year old boy about the pressure to have sex.

Internet chat room – virgin support group online – then he meets the kid in person. Or he goes to one of AC Green's abstinence websites.

Ticking clock ending – without it being a corny movie ending? Beth and another girl – they want to lez up and scew him? They find out he's a virgin and that's why they want to do that.

Maybe he almost fucks a cross-dresser at some point. Finally finds someone he's comfortable with – and it's a man. At a comic book convention, almost fucks a cross-dresser who's dressed up like a superhero.

Friends are surprised to find out – he's not gay. "Dude, he's not gay – he's just a virgin."

Maybe Trish's daughter gets really graphic about sex ... says she lost her virginity long ago. Or her boyfriend reveals that to him.

The story is about letting go of the image of what should be love. Maybe he's been obsessed with the Barnes & Noble girl for a long time. He peeks at her through a little portal in the stock room. One of the guys plays a prank on him. Sets up a camera, and Beth is on all of the TVs in the store.

He has a dream scenario of how it would go down. A fantasy like one of those Arab music videos – a shirt that's blowing. "That's how it's going to happen, I don't want it any other way." Could do a fantasy sequence. Guys who don't get laid think of guys who DO as dirty or un-romantic. You see them having sex and they're both wearing clothes. He relates the fantasy and his friends say, "So when does the sex happen?" At the end of the fantasy, the girl just floats away.

Nightmare fantasies – what BAD sex is like – his nightmare of how they will react. "Your dick fell off!" Or he has a vagina. "Gimme your big thick one!" and then he has a vagina. With teeth. Carell with a CGI vagina. "Now you have teeth!"

Can you make his penis limper than limp? Or he just can't hit the mark.

Or he can have a nightmare – his fantasy of who he becomes after sex. Because he's scared to change. He turns into a werewolf. "After you have sex, other women want to have sex with you. They can smell it." Like in Help!, he's running away from girls.

Or he has a fantasy about having sex with women in the stock room – and getting fired for it. He beats up the boss.

Keep showing interactions with women, and then he has to vent. A woman touches his hand in the store, then he shoots guns in a rage. Funny to see what he goes to in his head. Thinking of roadkill during sex. See him literally looking at roadkill. To the point where he's **HAVING SEX WITH ROADKILL**.

Mookie Wilson is at the plate – and then he's fucking Mookie Wilson. Mookie Wilson beats him up.

He pictures a snake head. But then the snake head starts kissing him. He makes out with it.

Literal baseball fantasy. All his buddies are cheering him on. All these naked women at each base. Who's the umpire? A guy from work. 1st base – make out. 2nd base – touch boobs. 3rd base – down pants. He's running home and she's like "Dive! Dive!"

His hobbies – are ultra elaborate. Welds the Eiffel tower. Maybe he makes collages like in the Truman Show. It's all women's faces up close – then you pull back, and it's the devil.

Or he sets up mega dominoes. 100,000 dominoes. At the YMCA. He's afraid to push the dominoes down. "I'm not the pusher." Each one is painted a different elaborate color. When they fall it looks like something.

He's great at magic tricks. "So you're into magic, can you make your dick disappear inside me?"

At the start – flipping channels – sex everywhere, on a coke ad, etc.

Sexual history ... go way farther back. Show him when he's a baby, his parents are having sex while he's bumping up & down on bed. Horror movie – attack of the fifty foot woman. Nature biography of women spiders eating the man spider's head.

Premature ejaculation before his first kisses. Maybe when he's on the phone – "Will you go out with me?" Then he prematurely ejaculates.

He thinks that all dreams are wet dreams.

Scene where he has never masturbated. Then he has his first masturbation. He should say exactly what he's had. How many handjobs. How many blowjobs. "Half a handjob." "Not a whole hand. Just a finger. She got it all the way around though. She fingered me."

Masturbate. In a dark room, alone with his eyes closed. Or maybe his parents catch him jacking off when he was younger, flip out. “Don’t ever ever do that again!” Or maybe he calls it something different – “I go to the races.” Or thinks the white stuff is puss. The first time – it may have taken hours to finish masturbating.
